The investment policies and practices of the Finance Director (Treasurer) for the Village of Antioch are based upon Federal, State, and Local law and prudent money management. The primary goals of these policies are:

- *Liquidity* - maintenance of sufficient liquidity to meet operating requirements
- *Yield* - attainment of market rates of return

The portfolio will be reviewed periodically as to its effectiveness in meeting the Village's needs for safety, liquidity, rate of return, diversification and its general performance. It is intended that the Village's policy will be reviewed on an annual basis.

**Delegation of Authority:**

Management and administrative responsibility for the investment program is hereby delegated to the Finance Director (Treasurer). In the absence of the Finance Director (Treasurer), the Village Administrator shall be responsible for the investment program.

**Ethics and Conflicts of Interest:**

Officers and employees involved in the investment process shall refrain from personal business activity that could conflict with the proper execution and management of the investment program, or that could impair their ability to make impartial decisions.

**Authorized Financial Dealers and Institutions:**

Authorized financial institutions will be approved by the Board in the Ordinance of Authorized Depositories. In addition, a list also will be maintained of approved security brokers/dealers selected by credit worthiness. These may include "primary" dealers or regional dealers that qualify under Securities & Exchange Commission Rule 15C3-1 (uniform net capital rule).

Employees of any firm or financial institution offering securities or investments to the Village are expected to be trained in the precautions appropriate to public-sector investments and are expected to familiarize themselves with the Village's investment objectives, policies, and constraints. Reserve funds, not otherwise restricted by Bond Ordinance, may be invested in securities exceeding five years if the maturity of such investments is made to coincide as nearly as practicable with the expected use of the funds.

**Internal Control:**

The Finance Director (Treasurer) is responsible for establishing and maintaining an internal control structure designed to ensure that assets of the Village are protected from loss, theft or misuse. The internal control structure shall be designed to provide reasonable assurance that these objectives are met. The internal controls shall address the following points:

All transactions must be jointly approved by two of the aforementioned persons. Investment officials shall be bonded to protect the Village against loss due to possible embezzlement and malfeasance.

**Performance Standards:**

This investment portfolio will be managed in accordance with the parameters specified within this policy. The Village's investment portfolio will be designed to obtain a market average rate of return during budgetary and economic cycles, taking into account the Village's investment risk constraints and cash flow needs. Portfolio performance should be compared to benchmarks with similar maturity, liquidity and credit quality as the portfolio. Portfolio performance shall be compared to the current Illinois Funds Money Market rate, or other appropriate benchmark such as the average three (3) month U.S. Treasury Bill return, to determine whether market average yields are being achieved. The investment program shall seek to augment returns above this threshold, consistent with prudent investment principles and the risk limitations identified herein.

Monthly Treasurer Reports shall be provided to the Board of Trustees, showing the monthly cash and investment transactions.

A statement of the market value of the investment portfolio shall be issued by the Finance Director (Treasurer) to the Board of Trustees quarterly.
