# TREE TRIMMING TO BEGIN SOON

Trees and branches that interfere with power lines can create safety hazards and cause power outages. Preventative tree maintenance helps avoid power outages.

- Within the next 3 months we will trim trees, branches and vines that interfere or have the potential to interfere with power lines.
- In some cases, tree removal may be required. The remaining tree stumps are treated with an approved herbicide to prevent future regrowth. Herbicide will be applied by state-licensed applicators.
- All work is performed by trained, qualified arborists.
