**ORDINANCE 13-01-02**

**AN ORDINANCE AMENDING §8-2-3-1 OF THE MUNICIPAL CODE OF ANTIOCH SPECIFICALLY PROHIBITING DISCHARGE OF INDUSTRIAL, COMMERCIAL OR RESIDENTIAL SEWAGE INTO STORM SEWERS AND DRAINAGE FACILITIES**

**WHEREAS**, the State of Illinois, through the Illinois Department of Transportation (IDOT), is desirous of improving the intersection of Tiffany Road and Illinois Route 173 to improve safety and ease the flow of traffic through new and reconstructed roadbeds and pavement, as well as the installation of traffic signals, and

**WHEREAS**, among the public improvements being so constructed are storm sewers and drainage facilities within and along the public way, and

**WHEREAS**, IDOT has required that there be a specific ordinance prohibiting the discharge of industrial, commercial or residential sewage into the said storm sewers and drainage facilities, and

**WHEREAS**, the Village Board notes that section 8-2-3-1 of the Antioch Municipal Code does currently regulate and prohibit such discharges, but finds that the section could be improved by a more specific ban on such practices, and

**WHEREAS**, the Village Board finds that adopting such an amendment is not only consistent with the terms of the IDOT project, but is clearly in the public's interest as an improvement in the public health and safety,

**NOW THEREFORE, BE IT ORDAINED** by the Village of Antioch, Lake County, Illinois, as follows:

**SECTION ONE:** Section 8-2-3-1 of the Antioch Municipal Code is hereby amended and shall hereafter read as follows (additions underlined, deletions ~~stricken~~):

**8-2-3-1: USE OF PUBLIC SEWERS REQUIRED:** 

- A. It shall be unlawful for any person to place, deposit or permit to be deposited in any unsanitary manner on public or private property within the village or in any area under the jurisdiction of the village, any human or animal excrement, garbage or other objectionable waste.

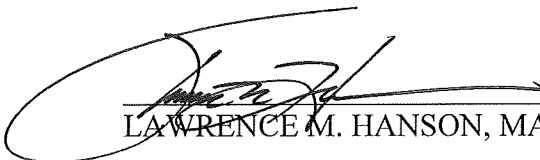

It shall be unlawful to discharge to any natural outlet within the village, or in any area under the jurisdiction of the village, without the express approval from the village engineer (VE) that all state and federal effluent limitations have been met and there are no reasonable alternative methods of disposal.

- B. Except as hereinafter provided, it shall be unlawful to construct or maintain any privy, privy vault, septic tank, cesspool or other facility intended or used for the disposal of sewage.
- C. The owner of all the houses, buildings, or properties used for human occupancy, employment, recreation or other purpose situated within the village and abutting on any street, alley or right of way in which there is now located or may in the future be located any public sanitary sewer of the village, is hereby required at his expense to install suitable toilet facilities therein, and to connect such facilities directly with the proper public sewer in accordance with the provisions of this chapter, within ninety (90) days after date of official notice to do so, provided that said public sewer is within two hundred feet (200') (61 m) of the property line. If such public sewer benefits other properties, the village board may enact a recapture ordinance and make best efforts to assure that the benefited property owners pay to the owner amounts as required. All public sewer extensions shall be made in accordance with section 8-2-2-2 of this chapter.
- D. It shall be unlawful to discharge any sanitary waste, including without limitation, any residential, commercial or industrial liquid waste product into any storm sewer, drainage facility, retention pond, detention pond or other stormwater control structure or device located within the village limits.

**SECTION TWO:** This Ordinance shall be in full force and effect from and after its passage, approval and publication as required by law.

PASSED BY THE BOARD OF TRUSTEES OF THE VILLAGE OF ANTIOCH, ILLINOIS,  
ON THIS 21, DAY OF JANUARY, 2013.

ATTEST:

  
LAWRENCE M. HANSON, MAYOR

  
LORI K. FOLBRICK, VILLAGE CLERK
