IV. Prior Year Special Tax Collections

The SSA No. 2 special tax is billed and collected by Lake County (the "County") in the same manner and at the same time as general ad valorem property taxes. The Village may provide for other means of collecting the special tax, if necessary to meet the financial obligations of SSA No. 2.

2012 Special Tax Receipts

The County billed a total of \$1,099,233.94 in SSA No. 2 2012 special taxes. As of November 22, 2013, SSA No. 2 2012 special tax receipts totaled \$625,394.72. Special taxes in the amount of \$473,839.22 are unpaid resulting in a delinquency rate of 43.11%. A breakdown of the paid and unpaid special taxes by owner of record is shown in Table 12 below.

Tax Sales and Foreclosures

The Lake County Treasurer's Office conducted its annual tax sale on November 18 and 19, 2013 ("County Tax Sale"). Prior to County Tax Sale, holders of outstanding tax liens were eligible to purchase any current year delinquent property taxes of properties subject to those liens. All other eligible delinquent property taxes were subject to sale at the County Tax Sale. Prior to the County Tax Sale, there were 291 parcels with delinquent special taxes of \$528,596.40. Delinquent property taxes for 31 parcels with special taxes of \$54,757.18 were purchased at the County Tax Sale.

The lien and foreclosure remedies provided for in Article 9 of the Illinois Municipal Code shall apply upon the nonpayment of the special tax. No foreclosures have commenced as of the date of this report.

¹ Property taxes owed by property owners who have filed for bankruptcy are not eligible for tax sale.

V. Development Status

The preliminary plat for SSA No. 2 includes 960 single-family home lots. Four plats (Phase 1, Phase 2, Phase 3 West, Phase 3 East) were recorded encompassing 613 single-family home lots. On September 14, 2006, the Village approved a plat amending a portion of Phase 3 East ("3 East Re-Plat") resulting in a reduction of five (5) single-family home lots in Phase 3 East. As a result the recorded plats currently encompass six hundred and eight (608) single-family home lots. An aerial map of SSA No. 2 is attached hereto as Exhibit A. The number of units in each plat is summarized in Table 13 below.

VI. Outstanding Bonds

The Series 2003 Bonds were issued in June 2003 as fixed rate bonds with an original principal amount of \$13,850,000. As of September 2, 2013, the outstanding principal was \$12,876,000. The current debt schedule adjusted for early redemptions from special tax prepayments is attached hereto as Exhibit B.

Special Tax Prepayments

The SSA No. 2 Maximum Parcel Special Tax may be prepaid and permanently satisfied, or prepaid in part, provided that proceeds for any such prepayment are sufficient to permit the redemption of Bonds in such amounts and maturities deemed necessary by the Administrator and in accordance with the Bond Indenture. The prepayment calculation formula is set forth in the Special Tax Roll and Report.

Bond Redemptions from Special Tax Prepayments

As a result of special tax prepayments received from property owners, \$212,000 of the Series 2003 Bonds has been redeemed as shown in Table 14 below.

I. INTRODUCTION

Pursuant to the provisions of the "Special Service Area Act," being 35 ILCS 200/27-5 et seq., and in accordance with the Establishing Ordinance, being Ordinance No. 02-09-39 passed by the Board of Trustees of the Village of Antioch (the "Village"), County of Lake, State of Illinois, on September 27, 2002, as amended by ordinance passed by the Board of Trustees on May 5, 2003, in connection with the proceedings for Special Service Area Number Two (Clublands) (hereinafter referred to as "SSA No. 2"), this Special Tax Roll and Report of Special Service Area (the "Report") is herewith submitted.

The report is organized into the following five sections:

- I. Introduction
- II. Special Service Area Description
- III. Special Services
- IV. Bonded Indebtedness
- V. Determination of Special Taxes

II. SPECIAL SERVICE AREA DESCRIPTION

SSA No. 2, otherwise known as the Clublands of Antioch, consists of approximately 450 acres which will be bisected by an extension of Savage Road that is generally located south of State Route 173 and north of Miller Road. The SSA is roughly equidistant between Deep Lake Road (on the west) and U.S. Highway 45 (on the east). The Clublands is approved for 960 single-family homes which are anticipated to be built in four phases.

III. SPECIAL SERVICES

SSA No. 2 has been established to finance certain special services conferring special benefit thereto and which are in addition to the municipal services provided to the Village as a whole. A general description, estimated cost, and allocation of these special services is set forth below.

A. DESCRIPTION

The special services to be financed by SSA No. 2 consist of certain public sanitary sewer collection and treatment, water distribution, storm sewer, and road improvements with appurtenances and appurtenant work in connection therewith necessary to serve SSA No. 2. It is anticipated that SSA No. 2 will finance the construction of the improvements, which may include construction management, inspection, and other "soft" costs. These improvements are located both on and off-site.

1. ON-SITE IMPROVEMENTS

SSA No. 2 is anticipated to fund the construction of all on-site sanitary sewer, water, and storm sewer improvements and a portion of the on-site road improvements. The on-site improvements are generally described as follows:

- Sanitary sewer main lines of varying diameter, manholes, and appurtenances;
- Water main lines of varying diameter, fire hydrants, and appurtenances;
- Road improvements including paving, curbs, gutters, sidewalks, right-of-way, and streetlights; and
- Storm sewers of varying diameter and appurtenances.

2. OFF-SITE IMPROVEMENTS

SSA No. 2 is anticipated to fund the construction of a portion of certain off-site sanitary sewer, water, road, and storm sewer improvements. Off-site improvements funded by SSA No. 2 will be exclusive of recapturable costs or costs otherwise allocable Special Service Area ("SSA") No. 1 since bond proceeds will only fund that portion of the off-site improvements actually benefiting SSA No. 2. The portion of the off-site improvements which generate excess capacity and therefore are subject to recapture will be paid by the developer. The off-site improvements are generally described as follows:

- The prepayment of a special tax established to fund the Clublands' share of capacity for the Mill Creek sewer treatment plant and sewer line facilities located just north of SSA No. 2 including construction and inspection, manholes, and appurtenances;
- Water distribution facilities including construction and inspection of 12-inch and 16- inch main lines along State Route 173, valves, fire hydrants, and appurtenances;
- Road improvements including the construction of N. Savage Road to State Route 173 and to the Village of Antioch Township line south of Miller Road, traffic signalization improvements at the intersection of N. Savage Road and State Route 173, and turn lanes at the intersections of N. Savage Road and State Route 173, State Route 173 and U.S. Highway 45, and Miller Road and U.S. Highway 45; and
- Storm sewer improvements along Miller Road including construction of a 30- inch storm sewer and related drainage structures.

B. ESTIMATED COSTS

The total estimated costs for the preceding improvements and the amounts allocable to SSA No. 2 and SSA No. 1 are presented in Table 1 on the following page. The recapturable costs shown in Table 1 are construction costs only (i.e., they do not include design, engineering, inspection, or other costs subject to recapture) and are based upon actual bids received. Note, the public improvements to be financed through bond proceeds for SSA No. 2 are expected to issued through two series of bonds. (The phasing of the bonds is discussed in greater detail in Section IV below.)

C. ALLOCATION

Special taxes levied pursuant to the Special Service Area Act must bear a rational relationship to the benefit received from the public improvements funded thereby. Therefore, the public improvements proposed to be financed by SSA No. 2 have been allocated in accordance with the benefit conferred to the property therein, with benefit estimated to be a function of (i) the service or benefit area for said improvements and (ii) the relative capacity for said improvements reserved for or used by properties within the benefit area. A discussion of the relevant benefit area(s) and measures of public facilities usage follows below.

1. BENEFIT AREA

Generally, the on-site improvements benefit only those properties within the SSA, while the off-site improvements are sized with sufficient capacity and are designed to serve the SSA as well as certain neighboring and other properties within the Village.

a. ON-SITE IMPROVEMENTS

The on-site public improvements will be physically located within each of the four phases of the Clublands development. The vast majority of these improvements will bring the special services directly to the individual residential lots therein (i.e., these are improvements typically within local street rights-of-way).

Certain other of the on-site improvements can be categorized as collector or common improvements (e.g., that portion of N. Savage Road within the boundaries of the SSA). While still local in nature, these improvements provide a more collective benefit to the SSA by conveying traffic to and from the development and/or providing a point of connection to community-wide or regional infrastructure.

In either case, the on-site improvements will be constructed to provide special services specifically to all four phases of development within the SSA.

b. OFF-SITE IMPROVEMENTS

Contrary to the on-site improvements, the benefit area for all but the off-site storm sewer improvements is larger than the boundaries of the SSA. As the benefit area may vary by improvement type, separate discussions for each major improvement category are included below.

i. SEWER

Clearly, the Mill Creek sewer treatment plant capacity exceeds the treatment demand for SSA No. 2. The share of treatment plant capacity allocable to SSA No. 2 is reflected in an existing special tax levied within the SSA to fund the construction of the Mill Creek plant. By definition, then, the component of the SSA No. 2 special tax attributable to the refinancing of the Mill Creek sewer treatment plant special tax has already been allocated, and any additional discussion regarding benefit area is unnecessary.

The benefit area for the off-site sewer line facilities is defined in the recapture agreement (the "Recapture Agreement"), and includes the Deercrest Subdivision, otherwise known as Special Service Area Number One of the Village of Antioch. The costs subject to recapture will be financed neither by SSA No. 1 nor SSA No. 2. The allocation of the non-recapturable sewer line costs to SSA No. 2 is discussed in greater detail in Section III.C.2 below.

ii. WATER

The benefit area for the off-site water lines is also defined in the Recapture Agreement, and includes SSA No. 1 as well. The water costs subject to recapture will be not be financed by either SSA. The allocation of the non-recapturable sewer line costs to SSA No. 2 is discussed in Section III.C.2 below.

iii. Roads

With the exception of the Miller Road turn lane improvements, all off-site road improvements benefit both SSA No. 1 and SSA No. 2. The allocation of the off-site road improvement costs is discussed in Section III.C.2 below.

iv. STORM SEWER

The storm sewer to be constructed along Miller Road is part of the storm sewer system designed to serve the Clublands development, and therefore strictly benefits SSA No. 2.

2. Public Facility Usage

Once the benefit areas have been established, the special services may be allocated among the various properties within such area in accordance with use. As is discussed in the following sections, commonly accepted measures for public facility usage indicate that the benefit conferred by the

public improvements proposed to be financed by SSA No. 2 applies uniformly by land use type. Note, public facility usage is addressed for land uses anticipated in both SSA No. 1 and SSA No. 2 for purposes of allocating certain off-site improvements which benefit both SSAs.

a. SEWER AND WATER USAGE

The primary determinant of sanitary sewer and water usage is the applicable population equivalent, or P.E. Household population is the criteria commonly used to project sewer and water service demand. Wastewater Engineering, Third Edition indicates that residential wastewater flow rates are typically determined on the basis of population density and the average per capita contribution of wastewater. The Illinois Environmental Protection Agency's criteria for water storage and distribution systems assume an everyday use equal to 50 gallons per day per person. In addition, an emergency capacity is set at 50 gallons per day per person. This equates to 350 and 300 gallons per day, respectively, for each single-family and townhome given the applicable IEPA's P.E. factors of 3.5 for single-family homes and 3.0 for townhomes.

Commercial sewer and water demand is a function of the nature and intensity of use. The commercial development is anticipated to include a mix of retail and commercial uses. The Village indicates that the P.E. for such commercial uses can range from fifteen (15) to thirty (30) per acre and estimates that a P.E. factor of twenty (20) per acre will meet anticipated demand.

Sewer and water demand for public schools is driven by two factors: type of school (i.e., grammar school, middle school, or high school) and the estimated number of students and employees. A middle school, with a capacity of 1,000 students and approximately 85 employees, is anticipated to be built in SSA No. 1 by School District Number 34. Applying the IEPA standards of 25.0 gallons per student and employee per day yields a total P.E. of 271.25 for the proposed middle school.

The P.E. applicable to each land use is shown in Table 2 on the following page.

b. Road Usage

Road usage is typically computed on the basis of anticipated trip generation. The Institute of Traffic Engineers publication *Trip Generation Sixth Edition*, indicates average weekday trips per single-family detached home and condominium/townhome of 9.57 and 6.59 trips, respectively.

Average weekday trip for commercial developments are commonly expressed per 1,000 square feet of gross leasable area. For a shopping center development, such as that proposed for SSA No. 1, average weekday trips equal 42.92 per 1,000 square feet of gross leasable area. However, a significant percentage of these are typically pass-by trips (i.e., trips made as intermediate stops on the way from an origin to a primary trip destination). This is particularly true for the subject shopping center development given its location on State Route 173 just west of U.S. Highway 45. Based upon data contained in *Trip Generation, the March 2001 Edition*, it is estimated that at least thirty percent of the trips will be comprised of pass-by traffic, resulting in a net trip end factor of 30.04 per 1,000 square feet.

The average weekday trips associated with a middle school are typically expressed per student and are estimated by *Trip Generation Sixth Edition* at 1.45 per middle school student.

Total trip ends applicable to each land use are shown in Table 3 on the following page.

c. Storm Sewer Usage

Storm sewer facilities are sized based upon estimated storm flows which vary with the size of the tributary drainage area, slope, soil type, antecedent runoff condition, and impervious ground cover. In its "Urban Hydrology for Small Watersheds: TR-55" (the "TR-55 Manual"), the United States Department of Agriculture indicates average "runoff curve numbers" for purposes of measuring storm flows or runoff. The runoff curve equation estimates storm runoff given a particular volume of rainfall.

The runoff curve numbers for fully developed urban areas indicated in the TR-55 Manual vary by land use type, impervious area, and hydrologic soil group. Assuming generally uniform antecedent runoff and hydrologic soil conditions within the SSA, storm flows will tend to vary with land use and impervious area. SSA No. 2 is approved for single family residential development, with a uniform density throughout.

Multiplying the impervious ground cover factor of thirty percent (30%) for single-family residential development with an average lot size of 1/3 acre by the gross land area, excluding open space, per single family home of approximately 13,167 square feet results in an estimated impervious ground area per single family lot of 3,950 square feet. As all lots are anticipated to have approximately the same impervious area, the storm flow and therefore usage of the storm sewer system is not expected to vary in any material amount from home to home.

Total impervious ground area is shown in Table 4 below.

Total for SSA No. 2			3,791,811	3,791,811

d. Outlots, Common Area, Open Space, and Clubhouse

No costs have been allocated to property on which development will not occur, such as outlots, common area, or open space, as it places an insignificant demand on and therefore, derives no material benefit from the public improvements. Additionally, no costs have been allocated to the clubhouse and related recreation facilities. Use of the clubhouse, which will be owned by the homeowner's association, will be limited to the residents of the Clublands project. Consequently, any benefit conferred to the clubhouse will be enjoyed by the residents thereby removing the need for a separate clubhouse allocation.

3. ALLOCATED COSTS

Dividing the total costs for each respective category of improvement in Table 1 by the total applicable usage factors in Tables 2 through 4 above results in improvements costs per P.E., trip end, or impervious square foot as shown in Table 5 on the following page. Multiplying these "unit" costs by the applicable usage factor for each land use type yields the allocated public improvements costs per residential dwelling unit shown in Table 6. The amount of these improvements to be funded by SSA No. 2 is shown in Table 7.

SSA No. 2 is not anticipated to fund all the public improvements allocable thereto with bond proceeds. The portion of the on-site improvements to be financed is detailed in Table 7. All on-site improvements not funded with bond proceeds will be paid by the developer and are categorized as "Developer's Equity". As noted previously, certain off-site improvement costs, excluding recapture, will be shared with SSA No. 1. Note, the Table 7 costs are grouped in accordance with the expected phasing of bonds.

D. ALTERNATIVES, MODIFICATIONS, AND/OR SUBSTITUTIONS

The description of the public improvements, as set forth herein, are general in nature. The final description, specifications, location, and costs of improvements and facilities will be determined upon the preparation of final plans and specifications and completion of the improvements. The final plans may show substitutes, in lieu or modifications to the proposed special services in order to accomplish the works of improvements, and any substitution, increase, or decrease to the amount of public improvements financed shall not be a change or modification in the proceedings as long as the total improvement costs actually funded, when allocated on a per dwelling unit basis, is equivalent for each single-family home within SSA No. 2.

IV. BONDED INDEBTEDNESS

It is anticipated that the public improvements will be financed through the issuance of two series of bonds. Total authorized bonded indebtedness is \$30,000,000. Bonds in the approximate amount of \$13,885,000 and \$8,780,000 are anticipated to be issued in May 2003 and March 2005, respectively. Issuance costs are estimated to be approximately four percent of the principal amount of the bonds. Each bond issue is estimated to include a reserve fund equal to approximately ten percent of the original principal amount of the bonds and approximately two years of capitalized interest. The term of the bonds is expected to range from 28 to 30 years, with principal amortized over a period of approximately 25 to 27 years. Annual debt service payments will increase approximately 1.50% annually. Pursuant to the Bond Ordinance, special taxes have been levied assuming \$22,570,000 of principal at an average coupon rate of 6.875%.

The final sizing of the bonds may be modified as appropriate to meet the objectives of the financing and prevailing bond market conditions. These modifications may include, but are not limited to, changes in the following:

- Bond timing, phasing, and/or escrows;
- Capitalized interest period;
- Principal amortization (i.e., bond term and annual debt service payment);
- Reserve fund size and form; and
- Coupon rates.

Therefore, the actual bonded indebtedness, and consequently the amount of public improvements financed by SSA No. 2, may increase or decrease depending upon these variables.

V. DETERMINATION OF SPECIAL TAXES

A. MAXIMUM ANNUAL SPECIAL TAXES

The maximum annual special taxes are a function of the cost allocation shown in Table 7 and the aggregate special taxes required to pay interest and principal on the bonds and administrative expenses, as well as provide funds to replenish the

reserve fund and/or mitigate delinquent special taxes. Expressed in percentage terms, interest and principal payments and administrative expenses less the investment earnings on the reserve fund are projected to average ninety-one percent (91.0%) of maximum annual special taxes, and the special taxes available to mitigate delinquencies are estimated to average nine percent (9.0%). Since the funded special services costs per dwelling unit is the same for all single-family homes, the maximum annual special tax is also the same for each home. The derivation of the maximum annual special tax is shown in Table 8 below.

TABLE 8 MAXIMUM ANNUAL SPECIAL TAXES (2004 LEVY YEAR/COLLECTED 2005)	
Required Maximum Annual Special Taxes	\$1,710,000
Single Family Homes	960
Maximum Annual Special Tax/Single Family Home	\$1,781.25

The required maximum annual special taxes are based upon the bond assumptions set forth in Section IV above and an assumption of an average coupon rate of 6.75%. The maximum annual special tax per single family home is simply computed by dividing the required maximum annual special taxes by the number of single-family homes. Therefore, the special taxes are proportional to the cost of the public improvements and bear a rational relationship to the benefit that each property receives therefrom.

Note, that while the annual increase in the maximum annual special tax is limited to one and one-half percent (1.50%), which is consistent with the anticipated graduated payment schedule for interest and principal on the bonds, the percentage annual change in the actual special tax collected may be greater depending upon actual special tax receipts, capitalized interest, investment earnings, and administrative expenses.

B. APPORTIONMENT AND ABATEMENT METHODOLOGY

1. DEVELOPED AND UNDEVELOPED PROPERTY

Benefit will be conferred in increments or phases, in accordance with the two series of bonds. The entire SSA will be benefited by the off-site improvements funded from the first series of bonds. However, the on-site improvements will benefit those subdivisions which are the first to be developed. Therefore, two classes of property have been established to reflect the different levels of benefit conferred prior to the second series of bonds.

Property for which a final plat has been recorded with the County of Lake and in which at least one building permit has been issued will be classified as "Developed Property." All other property that is subject to the special tax will be classified as "Undeveloped Property." Following the issuance

of the second series of bonds and the expenditure of all capitalized interest applicable thereto, the public improvement costs will be uniformly distributed and this distinction will no longer be necessary.

2. ABATEMENT METHODOLOGY

Each year, on or before the last Tuesday of December, a determination will be made as to the interest and principal payable on the bonds for the ensuing bond year, projected administrative expenses, and an allowance for delinquent special taxes. In the aggregate, the difference between the maximum annual special taxes and the sum of the preceding amounts will be abated. However, the abatement procedure set forth in Rate and Method of Levying Special Taxes ("RML") is designed to reflect the composition of the special tax as well as the different levels of benefit described in Section V.B.1 above.

First, up to nine percent (9.0%) of the special tax for both Developed Property and Undeveloped Property is abated Second, up to the remaining ninety-one percent (91.0%) of the special tax for Undeveloped Property is abated Third, up to the remaining ninety-one percent (91.0%) of the special tax for Developed Property is abated. Again, the special tax that will be collected after the abatement procedure is completed will equal the estimated interest and principal on the bonds, administrative expenses, and delinquent special taxes.

The end result is that (i) both Developed Property and Undeveloped Property share in the obligation to mitigate the impact of delinquent special taxes and (ii) the special tax collected from lots in developing subdivisions is commensurate with the total improvement costs to be funded by the SSA as set forth in Table 7, while the special tax for the remaining property reflects the reduced benefit attributable thereto pending the sale of the second series of bonds.

as of the September 30 preceding the Calendar Year for which the Special Tax is being collected. The classification to which each Parcel is assigned shall be fixed upon the recordation of the Final Plat from which such Parcel was established.

C. MAXIMUM PARCEL SPECIAL TAX

1. Single-family Property, Association Property, and Public Property

The Maximum Parcel Special Tax for Single-family Property, Association Property, and Public Property that has been levied in Calendar Year 2004 and which may be collected in Calendar Year 2005 is shown in Table 1 below.

Levied Ca	Table 1 Lendar Year 2004 L Special Tax Amounts
Classification	Maximum Parcel Special Tax
Single-family Property	\$1,781.25/lot or dwelling unit
Association Property	\$0.00/Parcel
Public Property	\$0.00/Parcel

The Maximum Parcel Special Tax for a Parcel of Single-family Property which is not located within a Final Plat shall be calculated by multiplying the number of expected single-family lots or dwelling units for such Parcel, as determined from the Preliminary Plat in effect as of September 30 preceding the Calendar Year for which the Special Tax is being collected, by the corresponding Maximum Parcel Special Tax per lot or dwelling unit determined pursuant to Table 1 above, as increased in accordance with the Section C.2 below.

2. Escalation

The Maximum Parcel Special Tax that has been levied in each subsequent Calendar Year thereafter, commencing with Calendar Year 2005, is one and one-half percent (1.50%) greater than the Maximum Parcel Special Tax for the preceding Calendar Year rounded up to the nearest dollar.

3. Maximum Parcel Special Taxes

The Maximum SSA Special Taxes shall not exceed \$2,556,108.30. The Special Tax Bond Prepayment amount and Mandatory Special Tax Prepayment amounts shall not exceed the Principal plus any Premium, Defeasance, and Fees as such terms are defined in Section G.

SSA No. 2 Page 4 of 9 April 29, 2003

4. Special Tax Roll Amendment

Each Calendar Year, in conjunction with the abatement ordinance adopted by the Village, the Board shall amend the Special Tax Roll to reflect the Maximum Parcel Special Tax applicable to any new Parcels established by the County. The amended Special Tax Roll shall be recorded with the County.

D. METHOD OF ABATING THE SPECIAL TAX

On or before the last Tuesday of December of each Calendar Year, commencing with Calendar Year 2004 and for each following Calendar Year, the Village or its designee shall determine the Special Tax Requirement and the Maximum Parcel Special Tax authorized by the ordinance providing for the issuance of the Bonds shall be abated as follows:

<u>First:</u> The Maximum Parcel Special Tax shall be abated in equal percentages on each Parcel of Developed Property and Undeveloped Property up to nine percent (9.00%) of the applicable Maximum Parcel Special Tax until the amount remaining equals the Special Tax Requirement;

<u>Second</u>: If the remaining Maximum Parcel Special Taxes levied is greater than the Special Tax Requirement, then the Maximum Parcel Special Tax shall be abated in equal percentages on each Parcel of Undeveloped Property up to one hundred percent (100%) of the applicable Maximum Parcel Special Tax until the amount remaining equals the Special Tax Requirement; and

Third: If the remaining Maximum Parcel Special Taxes levied is greater than the Special Tax Requirement, then the Special Tax shall be abated in equal percentages on each Parcel of Developed Property up to one hundred percent (100%) of the applicable Maximum Parcel Special Tax until the amount remaining equals the Special Tax Requirement.

Abated in equal percentages means that the amount abated for each Parcel, computed as a percentage of its applicable Maximum Parcel Special Tax, is the same. The Maximum Parcel Special Tax is sized to cover a delinquency rate of approximately nine percent (9%).

E. MANNER OF COLLECTION

The Special Tax will be billed and collected by the County in the same manner and at the same time as general ad valorem property taxes. The lien and foreclosure remedies provided for in Article 9 of the Illinois Municipal Code shall apply upon the nonpayment of the Special Tax. The Board may provide for other means of collecting the Special Tax, if necessary to meet the financial obligations of SSA No. 2.

1. Administrative Review

Any owner of a Parcel claiming that a calculation error has been made in the amount of the Special Tax applicable to such Parcel for any Calendar Year may send a written notice describing the error to the Administrator not later than thirty (30) days after having paid the Special Tax which is alleged to be in error. The Administrator shall promptly review the notice, and if necessary, meet with the property owner, consider written and oral evidence regarding the alleged error, and decide whether, in fact, such an error occurred. If the Administrator determines that an error did in fact occur and the Special Tax should be modified or changed in favor of the property owner, an adjustment shall be made in the amount of the Special Tax applicable to such Parcel in the next Calendar Year. Cash refunds shall only be made in the final Calendar Year for the Special Tax). The decision of the Administrator regarding any error in respect to the Special Tax shall be final.

F. TERM

The Maximum Parcel Special Tax is not levied after Calendar Year 2031 (to be collected in Calendar Year 2032).

G. OPTIONAL PREPAYMENT

The Maximum Parcel Special Tax for any Parcel may be prepaid and the obligation of the Parcel to pay the Maximum Parcel Special Tax permanently satisfied as described herein, provided that a prepayment may be made only if there are no delinquent Special Taxes with respect to such Parcel at the time of prepayment. An owner of a Parcel intending to prepay the Maximum Parcel Special Tax shall provide the Village with written notice of intent to prepay. Within 30 days of receipt of such written notice, the Village or its designee shall notify such owner of the Special Tax Bond Prepayment for such Parcel and the date through which the amount any such prepayment shall be valid.

1. Special Tax Bond Prepayment Prior to the Issuance of Bonds

The Special Tax Bond Prepayment for a Parcel of Single-family Property prior to the issuance of any Bonds shall equal \$17,899 per single-family lot or dwelling unit, subject to changes as described in Section D of the Special Tax Roll and Report for SSA No. 2. If at the time of the prepayment, the Parcel intending to prepay is not located within a Final Plat, the prepayment amount shall be calculated by multiplying the number of expected single-family lots or dwelling units for such Parcel as shown on the Preliminary Plat by the preceding Special Tax Bond Prepayment per lot or dwelling unit.

2. Special Tax Bond Prepayment After First Series but Prior to Second Series

The Special Tax Bond Prepayment for a Parcel of Single-family Property after the First Series but prior to the Second Series shall equal the net present value of the

remaining Maximum Parcel Special Taxes that have been levied for such Parcel, but not collected, less any Reserve Fund Credit as such term is defined in Section G.3 below. The present value of the remaining Maximum Parcel Special Taxes shall be computed using as the discount rate the yield on the outstanding Bonds. The Maximum Parcel Special Taxes shall be present valued to the later of the year in which the prepayment is made or the year in which all capitalized interest will be expended. If at the time of the prepayment, the Parcel intending to prepay is not located within a Final Plat, the prepayment amount shall be calculated by multiplying the number of expected single-family lots or dwelling units for such Parcel as shown on the Preliminary Plat by the corresponding prepayment amount per single-family lot or dwelling unit.

3. Special Tax Bond Prepayment Subsequent to the Second Series

Subsequent to the issuance of the Second Series, the Special Tax Bond Prepayment for a Parcel means an amount equal to (a) the sum of (1) Principal, (2) Premium, (3) Defeasance, and (4) Fees and (b) minus the Reserve Fund Credit, where the terms "Principal," "Premium," "Defeasance," "Fees," and "Reserve Fund Credit" have the following meanings:

"Principal" means the principal amount of Bonds to be redeemed and equals the quotient derived by dividing (a) the then applicable Maximum Parcel Special Tax for the Parcel intending to prepay by (b) the corresponding aggregate Maximum Parcel Special Taxes for SSA No. 2, (and excluding from (b) that portion of the Maximum Parcel Special Tax for any Parcel(s) that has been prepaid), and multiplying the quotient by the principal amount of outstanding Bonds.

"Premium" means an amount equal to the Principal multiplied by the applicable redemption premium, if any, for any Bonds so redeemed with the proceeds of any such prepayment. Any applicable redemption premium shall be as set forth in the Bond Indenture.

"Defeasance" means the amount needed to pay interest on the Principal to be redeemed until the earliest redemption date for the outstanding Bonds less for any Special Tax heretofore paid and which is not needed to pay Administrative Expenses nor has been used for the Special Tax Requirement.

"Fees" equal the expenses of SSA No. 2 associated with the Special Tax Bond Prepayment as calculated by the Village or its designee and include, but are not limited to, the costs of computing the Special Tax Bond Prepayment, the costs of redeeming the Bonds, and the costs of recording and publishing any notices to evidence the Special Tax Bond Prepayment and the redemption of Bonds.

"Reserve Fund Credit" shall equal the lesser of (i) the expected reduction in the applicable Reserve Requirement (as defined in the Bond Indenture), if

any, following the redemption of Bonds from proceeds of the Special Tax Bond Prepayment or (ii) the amount derived by subtracting the new Reserve Requirement in effect after the redemption of Bonds from proceeds of the Special Tax Bond Prepayment from the balance in the Reserve Fund (as defined in the Bond Indenture) on the prepayment date, but in no event shall such amount be less than zero. Reserve Fund earnings to be applied toward the Special Tax Requirement shall not be considered when computing the Reserve Fund Credit.

The Maximum Parcel Special Tax may also be prepaid in part, provided that proceeds for any such prepayment are sufficient to permit the redemption of Bonds in such amounts and maturities deemed necessary by the Administrator and in accordance with the Bond Indenture. The amount of any partial Special Tax Bond Prepayment shall be computed pursuant to the appropriate preceding section substituting the portion of the Maximum Parcel Special Tax to be prepaid for the Maximum Parcel Special Tax when computing Principal.

The sum of the amounts calculated in Section G.1 shall be paid to the Village, deposited with the trustee, and used to pay for public improvements in accordance with the Bond Indenture and to pay the Fees associated with the Special Tax Bond Prepayment. The sum of the amounts calculated in the Sections G.2 and G.3 shall be paid to the Village, deposited with the trustee, and used to pay and redeem Bonds in accordance with the Bond Indenture and to pay the Fees associated with the Special Tax Bond Prepayment. Upon the payment of the Special Tax Bond Prepayment amount to the Village, the obligation to pay the portion of the Maximum Parcel Special Tax which is prepaid for such Parcel shall be deemed to be permanently satisfied, such portion of the Maximum Parcel Special Tax shall not be collected thereafter from such Parcel, and in the event the entire Maximum Parcel Special Tax is prepaid the Administrator shall cause a satisfaction of special tax lien for such Parcel to be recorded within 30 working days of receipt of the Special Tax Bond Prepayment.

H. MANDATORY SPECIAL TAX PREPAYMENT

If at any time the Administrator determines that there has been or will be a reduction in the Maximum SSA Special Taxes as a result of an amendment to the Preliminary Plat, Final Plat, or other event which reduces the expected number of single-family lots or dwelling units (i.e., 960), then a mandatory prepayment of the Maximum Parcel Special Tax (the "Mandatory Special Tax Prepayment") corresponding to such reduction shall be calculated. The Mandatory Special Tax Prepayment amount will be calculated using the prepayment formula described in Section G, as applicable, with the following modifications:

The amount by which the Maximum SSA Special Taxes have been reduced shall serve as the numerator when computing Principal; and

No Reserve Fund Credit shall be given.

The Mandatory Special Tax Prepayment shall be due prior to any development approval, subdivision of land, conveyance, or other action that results in a reduction in the Maximum SSA Special Taxes. The Mandatory Special Tax Prepayment shall be levied against the

property on which the reduction has or will occur. The Mandatory Special Tax Prepayment shall have the same sale and lien priorities as are provided for regular property taxes. A Mandatory Special Tax Prepayment shall not reduce the Maximum Parcel Special Tax for any Parcel. The amount of any Mandatory Special Tax Prepayment shall not exceed the Principal plus any Premium, Defeasance, and Fees as such terms are defined in Section G.

I. AMENDMENTS

This Rate and Method of Levying Special Taxes may be amended by ordinance of the Village and, to the maximum extent permitted by the Act, such amendments may be made without further notice under the Act and without notice to owners of property within SSA No. 2 in order to (i) clarify or correct minor inconsistencies in the matters set forth herein, (ii) provide for lawful procedures for the collection and enforcement of the Special Tax so as to assure the efficient collection of the Special Tax for the benefit of the owners of the Bonds, (iii) otherwise improve the ability of the Village to fulfill its obligations to levy, extend, and collect the Special Tax and to make it available for the payment of the Bonds and Administrative Expenses, and (iv) make any change deemed necessary or advisable by the Village, provided such change is not detrimental to the owners of property subject to the Maximum Parcel Special Tax. No such amendment shall be approved by the Board if it violates any other agreement binding upon the Village and unless and until it has (i) found and determined that the amendment is necessary and appropriate and does not materially adversely affect the rights of the owners of the Bonds or the Village has obtained the consent of one hundred percent (100.00%) of the owners of the Bonds and (ii) received an opinion of a nationally recognized bond counsel to the effect that the amendment does not violate the Act, and is authorized pursuant to the terms of the Bond Indenture and this Rate and Method of Levying Special Taxes.
