Section 1. It is found and declared by the President and Board of Trustees of the Village of Antioch, Lake County, Illinois (the "Village"), as follows:

(a) The President and Board of Trustees of the Village adopted Ordinance No. 03-05-19 on May 5, 2003, as supplemented by a Determination dated May 29, 2003 (the "Deercrest Bond Ordinance") which: (i) provided for the issuance of \$10,685,000 of Special Service Area Number One Special Tax Bonds, Series 2003 (Deercrest Project) (the "SSA No. 1 Bonds") of the Village of Antioch for the purpose of paying the costs of certain improvements benefiting the Village's Special Service Area Number One (the "Special Service Area"); and (ii) provided for the levy of Special Taxes upon all taxable property within the Special Service Area sufficient to pay the principal of the SSA No. 1 Bonds for each year at maturity or mandatory sinking fund redemption dates and to pay interest and Administrative Expenses of the Special Service Area for each such year and to fund any required reserve funds. The Deercrest Bond Ordinance also directs the Village to calculate or to cause the Consultant appointed by the Village to calculate the Special Tax Requirement (as defined in the Deercrest Bond Ordinance); to amend the Special Tax Roll; to adopt an ordinance approving the amount of the current calendar year's Special Tax Requirement and abate the taxes levied pursuant to such Ordinance each year to the extent the taxes levied exceed the Special Tax Requirement as calculated pursuant to the Special Service Area Number One Deercrest Project Special Tax Roll and Report

dated April 29, 2003 (the “Special Tax Report”) prepared by David Taussig & Associates, Inc. (the “Consultant”).

(b) Pursuant to the Special Tax Report, the Consultant of the Village has prepared a report dated December 1, 2014 (the “Administrative Report”) which includes as Exhibit H thereto the Levy Year 2014 Amended Special Tax Roll (the “Amended Special Tax Roll”) a copy of which is attached hereto as Exhibit A, and has determined that the 2014 Special Tax Requirement for the SSA No. 1 Bonds is \$1,294,756.41 and the 2014 Maximum Parcel Special Taxes which may be levied as calculated by the Consultant pursuant to the Administrative Report and taking into account prepayments is \$948,661.40. The 2014 Levy will be insufficient to satisfy the 2014 Special Tax Requirement and a deficit is anticipated.

Section 2. Of the \$952,804.02 of Special Taxes levied for calendar year 2014 pursuant to Section 6 of the Deercrest Bond Ordinance \$4,142.62 (representing prepayments) of such Special Taxes is hereby abated resulting in a 2014 calendar year levy of \$948,661.40.

Introduction

This report calculates the 2014 special taxes required to pay annual debt service on the Village of Antioch (the "Village") Special Service Area Number One ("SSA No. 1") Special Tax Bonds, Series 2003 (Deercreek/Neuhaven) (the "Series 2003 Bonds") and administrative expenses and apportions the special taxes to each taxable parcel within SSA No. 1. Pursuant to the Special Service Area Act (the "Act"), the Village Board is the governing body of SSA No. 1. The Village Board must annually, prior to the last Tuesday of December, approve by ordinance the special taxes to be collected, abate the Maximum Parcel Special Taxes in excess of the special taxes to be collected, and direct the County Clerk of Lake County to extend the special taxes for collection. The special taxes will be billed on the tax bill for ad valorem property taxes.

SSA No. 1 was established by Ordinance No. 02-09-38 adopted by the Village Board on September 27, 2002, as amended by Ordinance No. 03-05-17 adopted by the Village Board on May 5, 2003 (the "Establishing Ordinance"). An aerial map of SSA No. 1 is attached hereto as Exhibit A. The Establishing Ordinance authorized SSA No. 1 to provide special services, issue bonds, and levy a special tax to repay the bonds.

Authorized Special Services

The authorized special services include:

- Certain engineering;
- Soil testing and appurtenant work;
- Mass grading and demolition;
- Storm water management facilities;
- Storm drainage systems and storm sewers;

Bonded Indebtedness

Ordinance No. 03-05-19 (the "Bond Ordinance"), adopted on May 5, 2003, approved the form of a trust indenture and preliminary limited offering memorandum and provided for the issuance of not more than \$12,000,000 in Series 2003 Bonds. The Series 2003 Bonds were issued in the amount of \$10,685,000 in June 2003. The current debt service schedule is attached hereto as Exhibit B and a brief summary of any optional redemption of bonds is contained in Section VI herein.

Special Taxes

The Establishing Ordinance incorporates the Village of Antioch Special Service Area Number One Special Tax Roll and Report (the "Special Tax Roll and Report"). The Special Tax Roll and Report sets forth the Maximum Parcel Special Taxes which have been levied for the payment of principal of and interest on the Series 2003 Bonds and the administration and maintenance of SSA No. 1 and is attached hereto as Exhibit C. A table of the Maximum Parcel Special Taxes is included in Section III herein.

I. Special Tax Requirement

The 2014 Special Tax Requirement for SSA No. 1 is equal to \$1,294,756.41. As shown in Table 1 below, the 2014 Special Tax Requirement is equal to the sum of the Series 2003 Bonds debt service for the twelve months ending March 1, 2016, estimated administrative expenses for such period, the contingency for estimated delinquent special taxes, and amount needed to restore the Reserve Fund to the Reserve Requirement, and less the estimated fund balances and excess reserve funds as of March 1, 2015 as shown in Table 3. Due to the Neumann Homes bankruptcy proceedings, administrative expenses are included for bankruptcy counsel to the Village. As shown in Table 1, the 2014 Maximum Parcel Special Taxes will be insufficient to satisfy the 2014 Special Tax Requirement and a deficit of \$346,095.01 is anticipated.

I. INTRODUCTION

Pursuant to the provisions of the "Special Service Area Act," being 35 ILCS 200/27-5 et seq., and in accordance with the Establishing Ordinance, being Ordinance No. 02-09-38, passed by the Board of Trustees of the Village of Antioch (the "Village"), County of Lake, State of Illinois, on September 27, 2002, as amended by ordinance passed by the Board of Trustees on May 5, 2003, in connection with the proceedings for Special Service Area Number One (hereinafter referred to as "SSA No. 1"), this Special Tax Roll and Report of Special Service Area (the "Report") is herewith submitted.

The report is organized into the following five sections:

- I. Introduction
- II. Special Service Area Description
- III. Special Services
- IV. Proposed Bonded Indebtedness
- V. Determination of Special Taxes

II. SPECIAL SERVICE AREA DESCRIPTION

SSA No. 1 consists of approximately 234 acres of land located along both the north and south sides of State Route 173 at its intersection with N. Savage Road in Antioch, Illinois, commonly known as the Deercrest Subdivision. The Deercrest Subdivision is approved for the development of 379 single-family homes and 116 townhomes, and includes 30 acres of commercial property as well as a 25 acre middle school site. All of the residential property is located north of State Route 173. The commercial and school properties are located south of State Route 173 and east of No. Savage Road.

III. SPECIAL SERVICES

SSA No. 1 has been established to finance certain special services conferring special benefit thereto and which are in addition to municipal services provided to the Village as a whole. A general description, estimated cost, and allocation of these special services are set forth below.

A. DESCRIPTION

The special services to be financed by SSA No. 1 consist of certain public sanitary sewer collection and treatment, water distribution, storm sewer, and road improvements with appurtenances and appurtenant work in connection therewith necessary to serve SSA No. 1. It is anticipated that SSA No. 1 will finance construction of the improvements, which may include design and/or engineering, construction management, inspection, and other "soft" costs. These improvements are located both on-site and off-site.

1. ON-SITE IMPROVEMENTS

SSA No. 1 is anticipated to fund the construction of a portion of the on-site sanitary sewer, water, road, and storm sewer improvements. The on-site improvements are generally described as follows:

- Sanitary sewer main lines of varying diameter, manholes, lift station, force main, and appurtenances;
- Water main lines of varying diameter, fire hydrants, and appurtenances;
- Road improvements including paving, curbs, gutters, sidewalks, snow removal truck, and streetlights; and
- Storm sewer main lines of varying diameter.

2. OFF-SITE IMPROVEMENTS

SSA No. 1 is anticipated to fund the construction of a portion of certain off-site sanitary sewer, water, road, and storm sewer improvements. Off-site improvements funded by SSA No. 1 will be exclusive of recapturable costs or costs otherwise Special Service Area ("SSA") No. 1. The portion of the costs of the off-site improvements which generate excess capacity and therefore are subject to recapture will be paid by the developer. The off-site improvements are generally described as follows:

- The prepayment of a special tax established to fund Deercree's share of capacity for the Mill Creek sewer treatment plant and sewer main line facilities located just south of State Route 173 including construction and inspection, manholes, and appurtenances;
- Water distribution facilities including construction and inspection of 12-inch and 16-inch main lines along State Route 173, valves, fire hydrants, and appurtenances; and
- Roadway improvements consisting of turn lanes at the intersections of N. Savage Road and State Route 173 and State Route 173 and State Route 45, and traffic signalization improvements at the intersection of N. Savage Road and State Route 173.

B. ESTIMATED COSTS

The total estimated costs for the preceding improvements and the amounts allocable to SSA No. 1 and Special Service Area ("SSA") No. 2 are presented in Table 1 on the following page. The recapturable costs shown in Table 1 are construction costs only (i.e., they do not include design, engineering, inspection, or other costs subject to recapture) and are based upon actual bids received.

C. ALLOCATION

Special taxes levied pursuant to the Special Service Area Act must bear a rational relationship to the benefit received from the public improvements funded thereby. Therefore, the public improvements proposed to be financed by SSA No. 1 have been allocated in accordance with the benefit conferred to the property therein, with benefit estimated to be a function of (i) the service or benefit area for said improvements and (ii) the relative capacity for said improvement reserved for or used by properties within the benefit area. A discussion of the relevant benefit area(s) and measure of public facilities usage follows below.

1. BENEFIT AREA AND RECAPTURE

Generally, the on-site improvements benefit only those properties within SSA No. 1 while the off-site improvements are sized with sufficient capacity and are designed to serve SSA No. 1 as well as certain neighboring and other properties within the Village.

a. ON-SITE IMPROVEMENTS

The area of benefit applicable to the on-site public improvements is limited strictly to the property within SSA No. 1 that is approved for residential development. The on-site public improvements will be physically located within the residential development. The vast majority of these improvements will bring the special services directly to the individual residential lots and therefore benefit is conferred to each dwelling unit. The commercial and school properties are not benefited by these on-site improvements, given their location across State Route 173 from the residential development.

b. OFF-SITE IMPROVEMENTS

Contrary to the on-site improvements, the benefit area for the off-site improvements is larger than the boundaries of SSA No. 1. As the benefit area may vary by improvement type, separate discussions for each major improvement category are included below.

i. SEWER

Clearly, the Mill Creek sewer treatment plant capacity exceeds the treatment demand for SSA No. 1. The share of the treatment plant capacity allocable to SSA No. 1 is reflected in an existing special tax levied within SSA No. 1 to fund the construction of the Mill Creek plant.

By definition, then, the component of the SSA No. 1 special tax attributable to the refinancing of the Mill Creek sewer treatment plant special tax has already been allocated, and any additional discussion regarding benefit area is unnecessary.

Note, only the portion of the Mill Creek plant attributable to the residential development will be prepaid through SSA No. 1. The commercial and school properties are expected to remain subject to the special tax of the existing SSA since their portion of the Mill Creek plant is not being financed with bond proceeds.

The benefit area for the off-site sewer line facilities is defined in the recapture agreement (the "Recapture Agreement"), and includes the Clublands Subdivision, otherwise known as Special Service Area Number Two of the Village of Antioch. The costs subject to recapture will be financed neither by SSA No. 1 nor SSA No. 2. The allocation of the non-recapturable sewer line costs to SSA No. 1 is discussed in greater detail in Section III.C.2 below.

ii. WATER

The benefit area for the off-site water lines is also defined in the Recapture Agreement, and includes special service area ("SSA") No. 2 (Clublands) as well. The water costs subject to recapture will not be financed by either SSA.

iii. ROADS

All off-site road improvements benefit both SSA No. 1 and SSA No. 2. The allocation of the off-site road improvements costs is discussed in Section III.C.2 below.

Furthermore, while the off-site improvements will benefit the commercial and school properties, SSA No. 1 will not finance with bond proceeds the off-site improvement costs attributable to such properties. As shown in the following tables, these properties are allocated their share of the off-site public improvements, but they will be funded by the developer, as the current property owner, and will therefore not be taxed.

2. PUBLIC FACILITY USAGE

Once the benefit areas have been established, the special services may be allocated among the various properties within such area in accordance with use. As is discussed in the following sections, commonly accepted measures for public facility usage indicate that the benefit conferred by the public improvements proposed to be financed by SSA No. 1 applies uniformly by land use type. Note, public facility usage is addressed for land uses anticipated in both SSA No. 1 and SSA No. 2 for purposes of allocating certain off-site improvements which benefits both SSAs.

a. SEWER AND WATER USAGE

The primary determinant of sanitary sewer and water usage is the applicable population equivalent, or P.E. Household population is the criteria commonly used to project sewer and water service demand. *Wastewater Engineering, Third Edition* indicates that residential wastewater flow rates are typically determined on the basis of population density and the average per capita contribution of wastewater. The Illinois Environmental Protection Agency's criteria for water storage and distribution systems assume an everyday use equal to 50 gallons per day per person. This equates to 350 and 300 gallons per day, respectively, for each single-family and townhome given the applicable IEPA's P.E. factors of 3.5 for single-family homes and 3.0 for townhomes.

Commercial sewer and water demand is a function of the nature and intensity of use. The commercial development is anticipated to include a mix of retail and commercial uses. The Village indicates that the P.E. for such commercial uses can range from fifteen (15) to thirty (30) per acre and estimates that a P.E. factor of twenty (20) per acre will meet anticipated demand.

Sewer and water demand for public schools is driven by two factors: type of school (i.e., grammar school, middle school, or high school) and the estimated number of students and employees. A middle school, with a maximum capacity of 1,000 students and approximately 85 employees, is anticipated to be built in SSA No. 1 by the school district, District No. 34. Applying the IEPA's standard of 25 gallons per student and employee per day and yields a total of 271.25 P.E. for the site.

The P.E. applicable to each land use is shown in Table 2 on the following page.

b. ROAD USAGE

Road usage is typically computed on the basis of trip generation. The Institute of Traffic Engineers publication *Trip Generation, 6th Edition*, indicates average weekday trips per single-family detached home and condominium/townhome of 9.57 and 6.59 trips, respectively.

Average weekday trips for commercial developments are commonly expressed per 1,000 square feet of gross leasable area. For shopping center development, average weekday trips equal 42.92 per 1,000 square feet of gross leasable area. However, a significant percentage of these trips will be considered pass-by (i.e., trips made as an intermediate stops on the way from an origin to a primary trip destination). This is particularly true for the subject shopping center development given its location on State Route 173 just west of U.S. Highway 45. Based upon data contained in *Trip Generation Fifth Edition*, it is estimated that at least thirty percent (30%) of the trips will be comprised of pass-by traffic, resulting in a net trip end facto of 30.04 per 1,000 square feet.

The average weekday trips associated with a middle school are typically expressed per student and are estimated by *Trip Generation Sixth Edition* at 1.45 per middle school student.

Total trip ends applicable to each land use is shown in Table 3 on the following page.

c. STORM SEWER USAGE

Storm sewer facilities are sized based upon estimated storm flows which vary with the size of the tributary drainage area, slope, soil type, antecedent runoff condition, and impervious ground cover. In its "Urban Hydrology for Small Watersheds: TR-55" (the "TR-55 Manual"), the United States Department of Agriculture indicates average "runoff curve numbers" for purposes of measuring storm flows or runoff. The runoff curve equation estimates storm runoff given a particular volume of rainfall.

The runoff curve numbers for fully developed urban areas indicated in the TR-55 Manual vary by land use type, impervious area, and hydrologic soil group. Assuming generally uniform antecedent runoff and hydrologic soil conditions within SSA No. 1, storm flows will tend to vary with land use and impervious area.

Multiplying the impervious ground cover factor of thirty percent (30%) for single-family residential development with an average lot size of 1/3 acre by the gross land area, excluding open space, per single family home of approximately 13,717 square feet results in an estimated impervious ground area per single-family lot of 4,115 square feet. For townhomes, the impervious area of 5,606 square feet per townhome is calculated by dividing the total area of the parcels on which the townhomes are to be constructed, including streets, or 1,000,473 square feet, by the anticipated number of townhome units, or 116, and then multiplying the quotient by the impervious ground cover factor of sixty-five percent (65%) for townhomes.

As all lots are anticipated to have approximately the same impervious area, the storm flow and therefore usage of the storm sewer system is not expected to vary in any material amount from single-family home to single-family home or from townhome to townhome.

Total impervious ground area applicable to each land use is shown in Table 4 on the following page.

Land Use	Count	Impervious Square Feet	On-site Improvements

Townhomes	116 Units	5,606/unit	650,307
-----			-----
Total for SSA No. 1			2,209,742

d. OUTLOTS, COMMON AREA, AND OPEN SPACE

No costs have been allocated to property on which development will not occur, such as outlots, common area, or open space, as it places an insignificant demand on and therefore, derives no material benefit from the public improvements.

3. ALLOCATED COSTS

Dividing the total costs for each respective category of improvement in Table 1 by the total applicable usage factors in Tables 2 through 4 above results in improvements costs per P.E., trip end, or impervious square foot as shown in Table 5 on the following page. Multiplying these "unit" costs by the applicable usage factor for each land use type yields the allocated public improvements costs per dwelling unit, per acre/building square foot, or per person, as applicable, shown in Table 6. The amount of these improvements to be funded by SSA No. 1 is shown in Table 7.

As all the public improvements cannot be financed through SSA No. 1, the portion of the on-site improvements to be financed with bond proceeds are detailed in Table 7. All on-site improvements not financed through SSA No. 1 will be funded by the developer and are categorized as "Unfunded Residential" in Table 8. As noted previously, certain off-site improvement costs, excluding recapture, will be shared with SSA No. 2.

D. ALTERNATIVES, MODIFICATIONS, AND/OR SUBSTITUTIONS

The description of the public improvements, as set forth herein, are general in nature. The final description, specifications, location, and costs of improvements and facilities will be determined upon the preparation of final plans and specification. In addition, the actual amounts financed by SSA No. 1 may increase or decrease as described in Section IV below. The final plans may show substitutes, in lieu or modifications to the proposed special services in order to accomplish the works of improvements, and any substitution, increase, or decrease to the amount of public improvements financed shall not be a change or modification in the proceedings, as long as (i) the total improvement costs actually funded, when allocated to each single-family home and townhome, is the same amount per dwelling unit within each such land use category and (2) such allocation results in the same ratio of the public improvements between these two land use types, as established in Section V.A below.

IV. BONDED INDEBTEDNESS

It is anticipated that the public improvements will be financed through the issuance of a single series of bonds. Total authorized bonded indebtedness is \$12,000,000. Bonds in the approximate amount of \$10,680,000 are anticipated to be issued in May 2003. Issuance costs are estimated to be approximately four percent of the principal amount of the bonds. The bond issue is estimated to include a reserve fund equal to approximately ten percent of the original principal amount of the bonds and approximately two years of capitalized interest. The bonds are expected to have a term of 30 years with principal amortized over 27 years. Annual debt service payments will increase approximately 1.5% annually.

The final sizing of the bonds may be modified as appropriate to meet the objectives of the financing and prevailing bond market conditions. These modifications may include, but are not limited to, changes in the following:

- Bond timing, phasing, and/or escrows;
- Capitalized interest period;
- Principal amortization (i.e., bond term and annual debt service payment);
- Reserve fund size and form; and
- Coupon rates.

Therefore, the actual bonded indebtedness, and consequently the amount of public improvements financed by SSA No. 1, may increase or decrease depending upon these variables.

V. DETERMINATION OF SPECIAL TAXES

As mentioned previously, the public improvements allocable to the commercial and school properties will not be financed with bond proceeds for SSA No. 1. Therefore,

these land uses will not be subject to the special tax. The discussion that follows applies only to the residential property.

A. MAXIMUM ANNUAL SPECIAL TAXES

In order to measure the relative difference in public improvement costs for each land use type, equivalent dwelling unit ("EDU") factors have been calculated. Single-family homes are deemed to typical residential unit and are assigned an EDU factor of 1.00. EDU factors for townhomes are based upon the relative difference in public improvement costs allocated thereto when compared to a single-family home.¹ EDUs are shown in Table 8 below.

TABLE 8 EDU FACTORS			
	Cost/Unit	EDU Factor	EDUs
Single-Family Home	\$17,310	1.000	379.00
Townhome	\$12,087	0.698	81.00
Total			460.00

The maximum annual special taxes are a function of the EDUs and the aggregate special taxes required to pay interest and principal on the bonds and administrative expenses as well as provide funds to replenish the reserve fund and/or mitigate delinquent special taxes. Expressed in percentage terms, interest and principal payments and administrative expenses less investment earnings on the reserve fund are projected to average ninety-one (91%) of the maximum annual special taxes, and the special taxes available to mitigate delinquencies are estimated to average nine percent (9.0%). The derivation of the maximum annual special taxes is shown in Table 9 below.

TABLE 9 MAXIMUM ANNUAL SPECIAL TAXES (2004 LEVY YEAR/COLLECTED 2005)			
	Total	Single-Family	Townhome
Required Aggregate Annual Special Taxes	\$821,000	\$676,433	\$144,567
EDUs	460.00	379.00	81.00
Dwelling Units (DUs)	495	379	116
Maximum Annual Special Tax/EDU	\$1,784.78	NA	NA
Maximum Annual Special Tax/DU	NA	\$1,784.78	\$1,246.26

The required aggregate annual special taxes are based upon the bond assumptions set forth in Section IV above and an assumption of an average coupon rate of 6.75%. The maximum annual special tax per EDU is simply

¹ By the way of example, if the improvement costs per lot for each single-family home and townhome were \$10,000 and \$7,000, respectively, the relative difference of the townhome from the single-family home would be computed by dividing \$7,000 by \$10,000.

computed by dividing the required aggregate special taxes by the number of EDUs. Therefore, the special taxes are proportional to the cost of the public improvements and bear a rational relationship to the benefit that each property receives therefrom.

Note, that while the annual increase in the maximum annual special tax is limited to one and one-half percent (1.50%), which is consistent with the anticipated graduated payment schedule for interest and principal on the bonds, the percentage annual change in the actual special tax collected may be greater depending upon actual special tax receipts, capitalized interest, investment earnings, and administrative expenses.

B. APPORTIONMENT AND ABATEMENT METHODOLOGY

Each year, the portion of maximum annual special tax that is not needed for payment of interest, principal, and administrative expenses and to mitigate delinquencies will be abated. The percentage abated will be uniform for all parcels. While the annual increase in the maximum special tax is limited to one and one-half (1.50%), the percentage annual change in the actual special tax collected may be greater depending upon the actual special tax receipts, capitalized interest, investment earnings, and administrative expenses.

The classification to which each Parcel is assigned shall be fixed upon the recordation of the Final Plat from which such Parcel was established.

C. MAXIMUM PARCEL SPECIAL TAX

1. Single-family Property, Townhome Property, Non-Residential Property, Association Property, and Public Property

The Maximum Parcel Special Tax for Single-family Property, Townhome Property, Non-Residential Property, Association Property, and Public Property that has been levied in Calendar Year 2004 and which may be collected in Calendar Year 2005 is shown in Table 1 below.

TABLE 1 LEVIED CALENDAR YEAR 2004 MAXIMUM PARCEL SPECIAL TAX AMOUNTS	
Classification	Maximum Parcel Special Tax
Single-family Property	\$1,784.78/lot or dwelling unit
Townhome Property	\$1,246.26/lot or dwelling unit
Association Property	\$0.00/Parcel
Public Property	\$0.00/Parcel
Non-Residential Property	\$0.00/Parcel

The Maximum Parcel Special Tax for a Parcel of Single-family Property or Townhome Property which is not located within a Final Plat shall be calculated by multiplying the number of expected single-family and/or townhome lots or dwelling units for such Parcel, as determined from the Preliminary Plat in effect as of September 30 preceding the Calendar Year for which the Special Tax is being collected, by the corresponding Maximum Parcel Special Tax per lot or dwelling unit determined pursuant to Table 1 above, as increased in accordance with Section C.2 below.

2. Escalation

The Maximum Parcel Special Tax that has been levied in each subsequent Calendar Year thereafter, commencing with Calendar Year 2005, is one and one-half percent (1.50%) greater than the Maximum Parcel Special Tax for the preceding Calendar Year rounded up to the nearest dollar.

3. Maximum Parcel Special Taxes

The Maximum SSA Special Taxes shall not exceed \$1,227,230.95. The Special Tax Bond Prepayment amount and Mandatory Special Tax Prepayment amounts shall not exceed the Principal plus any Premium, Defeasance, and Fees as such terms are defined in Section G.

4. Special Tax Roll Amendment

Each Calendar Year, in conjunction with the abatement ordinance adopted by the Village, the Board shall amend the Special Tax Roll to reflect the Maximum Parcel Special Tax applicable to any new Parcels established by the County. The amended Special Tax Roll shall be recorded with the County.

D. METHOD OF ABATING THE SPECIAL TAX

On or before the last Tuesday of December of each Calendar Year, commencing with Calendar Year 2004 and for each following Calendar Year, the Village or its designee shall determine the Special Tax Requirement and the Maximum Parcel Special Tax authorized by the ordinance providing for the issuance of the Bonds shall be abated to the extent the amounts so extended exceed the Special Tax Requirement. The Maximum Parcel Special Tax applicable to each Parcel shall be abated in equal percentages until the Special Tax remaining equals the Special Tax Requirement.

Abated in equal percentages means that the amount abated for each Parcel, computed as a percentage of its applicable Maximum Parcel Special Tax, is the same. The Maximum Parcel Special Tax is sized to cover a delinquency rate of approximately nine percent (9.0%).

E. MANNER OF COLLECTION

The Special Tax will be billed and collected by the County in the same manner and at the same time as general ad valorem property taxes. The lien and foreclosure remedies provided for in Article 9 of the Illinois Municipal Code shall apply upon the nonpayment of the Special Tax. The Board may provide for other means of collecting the Special Tax, if necessary to meet the financial obligations of SSA No. 1.

1. Administrative Review

Any owner of a Parcel claiming that a calculation error has been made in the amount of the Special Tax applicable to such Parcel for any Calendar Year may send a written notice describing the error to the Administrator not later than thirty (30) days after having paid the Special Tax which is alleged to be in error. The Administrator shall promptly review the notice, and if necessary, meet with the property owner, consider written and oral evidence regarding the alleged error and decide whether, in fact, such an error occurred. If the Administrator determines that an error did in fact occur and the Special Tax should be modified or changed in favor of the property owner, an adjustment shall be made in the amount of the Special Tax applicable to such Parcel in the next Calendar Year. Cash refunds shall only be made in the final Calendar Year for the Special Tax. The decision of the Administrator regarding any error in respect to the Special Tax shall be final.

F. TERM

The Maximum Parcel Special Tax is not levied after Calendar Year 2031 (to be collected in Calendar Year 2032).

G. OPTIONAL PREPAYMENT

The Maximum Parcel Special Tax for any Parcel may be prepaid and the obligation of the Parcel to pay the Maximum Parcel Special Tax permanently satisfied as described herein, provided that a prepayment may be made only if there are no delinquent Special Taxes with

respect to such Parcel at the time of prepayment. An owner of a Parcel intending to prepay the Maximum Parcel Special Tax shall provide the Village with written notice of intent to prepay. Within 30 days of receipt of such written notice, the Village or its designee shall notify such owner of the Special Tax Bond Prepayment for such Parcel and the date through which the amount any such prepayment shall be valid.

1. Special Tax Bond Prepayment Prior to the Issuance of any Bonds

The Special Tax Bond Prepayment for a Parcel of Single-family Property and Townhome Property prior to the issuance of any Bonds shall equal \$17,310 or \$12,087 per lot or dwelling unit, respectively, subject to changes as described in Section D of the Special Tax Roll and Report for SSA No. 1. If at the time of the prepayment, the Parcel intending to prepay is not located within a Final Plat, the prepayment amount shall be calculated by multiplying the number of expected residential lots or dwelling units for such Parcel as shown on the Preliminary Plat by the preceding Special Tax Bond Prepayment per lot or dwelling unit.

2. Special Tax Bond Prepayment Subsequent to the Issuance of Bonds

Subsequent to the issuance of Bonds, the Special Tax Bond Prepayment for a Parcel means an amount equal to (a) the sum of (1) Principal, (2) Premium, (3) Defeasance, and (4) Fees and (b) minus the Reserve Fund Credit, where the terms "Principal," "Premium," "Defeasance," "Fees," and "Reserve Fund Credit" have the following meanings:

"Principal" means the principal amount of Bonds to be redeemed and equals the quotient derived by dividing (a) the then applicable Maximum Parcel Special Tax for the Parcel intending to prepay by (b) the corresponding aggregate Maximum Parcel Special Taxes for SSA No. 1, (and excluding from (b) that portion of the Maximum Parcel Special Tax for any Parcel(s) that has been prepaid), and multiplying the quotient by the principal amount of outstanding Bonds.

"Premium" means an amount equal to the Principal multiplied by the applicable redemption premium, if any, for any Bonds so redeemed with the proceeds of any such prepayment. Any applicable redemption premium shall be as set forth in the Bond Indenture.

"Defeasance" means the amount needed to pay interest on the Principal to be redeemed until the earliest redemption date for the outstanding Bonds less for any Special Tax heretofore paid and which is not needed to pay Administrative Expenses nor has been used for the Special Tax Requirement.

"Fees" equal the expenses of SSA No. 1 associated with the Special Tax Bond Prepayment as calculated by the Village or its designee and include, but are not limited to, the costs of computing the Special Tax Bond Prepayment, the costs of redeeming the Bonds, and the costs of recording and

publishing any notices to evidence the Special Tax Bond Prepayment and the redemption of Bonds.

"Reserve Fund Credit" shall equal the lesser of (i) the expected reduction in the applicable Reserve Requirement (as defined in the Bond Indenture), if any, following the redemption of Bonds from proceeds of the Special Tax Bond Prepayment or (ii) the amount derived by subtracting the new Reserve Requirement in effect after the redemption of Bonds from proceeds of the Special Tax Bond Prepayment from the balance in the Reserve Fund (as defined in the Bond Indenture) on the prepayment date, but in no event shall such amount be less than zero. Reserve Fund earnings to be applied toward the Special Tax Requirement shall not be considered when computing the Reserve Fund Credit.

The Maximum Parcel Special Tax may also be prepaid in part, provided that proceeds for any such prepayment are sufficient to permit the redemption of Bonds in such amounts and maturities deemed necessary by the Administrator and in accordance with the Bond Indenture. The amount of any partial Special Tax Bond Prepayment shall be computed pursuant to the appropriate preceding section substituting the portion of the Maximum Parcel Special Tax to be prepaid for the Maximum Parcel Special Tax when computing Principal.

The sum of the amounts calculated in Section G.1 shall be paid to the Village, deposited with the trustee, and used to pay for public improvements in accordance with the Bond Indenture and to pay the Fees associated with the Special Tax Bond Prepayment. The sum of the amounts calculated in the Section G.2 shall be paid to the Village, deposited with the trustee, and used to pay and redeem Bonds in accordance with the Bond Indenture and to pay the Fees associated with the Special Tax Bond Prepayment. Upon the payment of the Special Tax Bond Prepayment amount to the Village, the obligation to pay the portion of the Maximum Parcel Special Tax which is prepaid for such Parcel shall be deemed to be permanently satisfied, such portion of the Maximum Parcel Special Tax shall not be collected thereafter from such Parcel, and in the event the entire Maximum Parcel Special Tax is prepaid the Administrator shall cause a satisfaction of special tax lien for such Parcel to be recorded within 30 working days of receipt of the Special Tax Bond Prepayment.

H. MANDATORY SPECIAL TAX PREPAYMENT

If at any time the Administrator determines that there has been or will be a reduction in the Maximum SSA Special Taxes as a result of an amendment to the Preliminary Plat, Final Plat, or other event which reduces the expected number of single-family or townhome lots or dwelling units (i.e., 379 and 116 respectively), then a mandatory prepayment of the Maximum Parcel Special Tax (the "Mandatory Special Tax Prepayment") corresponding to such reduction shall be calculated. The Mandatory Special Tax Prepayment amount will be calculated using the prepayment formula described in Section G, as applicable, with the following modifications:

The amount by which the Maximum SSA Special Taxes have been reduced shall serve as the numerator when computing Principal; and

No Reserve Fund Credit shall be given.

The Mandatory Special Tax Prepayment shall be due prior to any development approval, subdivision of land, conveyance, or other action that results in a reduction in the Maximum SSA Special Taxes. The Mandatory Special Tax Prepayment shall be levied against the property on which the reduction has or will occur. The Mandatory Special Tax Prepayment shall have the same sale and lien priorities as are provided for regular property taxes. A Mandatory Special Tax Prepayment shall not reduce the Maximum Parcel Special Tax for any Parcel. The amount of any Mandatory Special Tax Prepayment shall not exceed the Principal plus any Premium, Defeasance, and Fees as such terms are defined in Section G.

I. AMENDMENTS

This Rate and Method of Levying Special Taxes may be amended by ordinance of the Village and, to the maximum extent permitted by the Act, such amendments may be made without further notice under the Act and without notice to owners of property within SSA No. 1 in order to (i) clarify or correct minor inconsistencies in the matters set forth herein, (ii) provide for lawful procedures for the collection and enforcement of the Special Tax so as to assure the efficient collection of the Special Tax for the benefit of the owners of the Bonds, (iii) otherwise improve the ability of the Village to fulfill its obligations to levy, extend, and collect the Special Tax and to make it available for the payment of the Bonds and Administrative Expenses, and (iv) make any change deemed necessary or advisable by the Village, provided such change is not detrimental to the owners of property subject to the Maximum Parcel Special Tax. No such amendment shall be approved by the Board if it violates any other agreement binding upon the Village and unless and until it has (i) found and determined that the amendment is necessary and appropriate and does not materially adversely affect the rights of the owners of the Bonds or the Village has obtained the consent of one hundred percent (100.00%) of the owners of the Bonds and (ii) received an opinion of a nationally recognized bond counsel to the effect that the amendment does not violate the Act, and is authorized pursuant to the terms of the Bond Indenture and this Rate and Method of Levying Special Taxes.
