Exhibit "A" Staff Report

REPORT TO: VILLAGE PRESIDENT and BOARD OF TRUSTEES
FROM: MICHAEL S. GARRIGAN, AICP, CNU-A, Community Development Director
DATE: July 6, 2017
SUBJECT: REPORT TO VILLAGE BOARD

CASE: Tractor Supply Company
17-05

REQUEST: Annexation (Public Hearing)
Rezoning

LOCATION: Northeast corner of Grimm Road and Route 83

APPLICANT: Village

ZONING: R-1 (Lake County)

Background

The Village is under contract to sell 3.7 acres of the Boylan development to Tractor Supply Company (TSC) and part of the contract, we are obligated to annex and rezone the subject site. The subject site is located the northeast corner of Grimm Road and Route 83. TSC has plans to construct a new 19,000 square foot retail building.

The subject property is current vacant and is part of the 50 acre Boylan parcel that the Village purchased in 2016. The site is adjacent to Route 83 on the west and the Canadian National Railroad on the east. TSC has requested as part of the proposed contract with the Village that the property be zoned B-3 (Highway Commercial).

Annexation

The Village is seeking to annex approximately 3.7 acres into the Village. The subject site is currently contiguous to the Village of Antioch and is within the Village's planning area. The subject site is located within the Village's Facility Planning Area (FPA) and utilities are adjacent to the subject site. The property is contiguous to the Village from the north and west. The subject site has been identified for commercial

use as part of the Boylan Concept Plan that incorporates a mixture of auto dealerships, light industrial, public works, and retail within this future development.

Based on the foregoing, staff would recommend that the proposed annexation is a logical extension of the Village's municipal boundaries.

Rezoning

The Village as part of the Real Estate Contract is seeking to rezone the subject property to B-3 (Business Highway) from its current R-1 county zoning. The existing 3.7 acre site is vacant and is adjacent to the railroad. The site's frontage on Route 83 makes it appropriate for commercial development

Prior to making any favorable recommendation for any requested rezoning, it is important that certain findings or standards be met by the applicant. Any rezoning consistent with Illinois law should meet the following criteria:

- Be consistent with zoning and land uses in the surrounding area.
- Be consistent with the Village's policies and Comprehensive Plan.
- Not have any negative impact on the surrounding properties, including the diminishing of property values.
- Consistent with the trend of development in the adjacent area.

While there is no set of formal findings that are outlined in Section 10-15-4, any proposed rezoning should take these factors into account.

The subject site is adjacent to Route 83 which continues to serve as a Strategic Regional Arterial and carries approximately 9,000 vehicles per day past the subject site. The Route 83 serves as a commercial corridor for the Village of Antioch. The site to the west of this proposed TSC store is currently zoned B-3 and was a commercial building. This commercial site now contains a church. To the south of the subject site includes a number of commercial uses.

The Village's 1991 Comprehensive Plan identifies this area as commercial. In addition, the clear trend of development along Route 83 continues to be commercial development. The long term vision of the Village is the redevelopment of a number of commercial sites along the corridor. The corridor is in major need of major visual improvements and Staff believes that this new retail building can bring new energy and investment to the corridor.

There is nothing to indicate that this proposed 19,000 square foot retail building will have any negative impact on any of the adjacent properties. The railroad will serve as a buffer to the east and the proposed retention pond will serve as a buffer to the north. To the north is the Faith Lutheran School and their parking lot. Staff will be working with the applicant as part of the future Site Plan Review to incorporate landscaping along the northern perimeter to ensure that there is no negative impact on the school located to the north of the subject site.

- The applicant will be required to submit a Site Plan Review application in the future. The PZB and Village Board will have an opportunity to review the final Site Plan, architectural elevations,

parking plan, access points, landscape plan, and engineering as part of the future Site Plan Review. None of these specific details are being reviewed as part of the Annexation and Rezoning.

RECOMMENDATION

Based on the foregoing analysis, staff recommends that the Village Board approve the proposed Annexation as a logical extension of the Village's municipal boundaries. In addition, staff would recommend that the Village Board approve the rezoning of the subject site to B-3 zoning.

We move that the Village Board approve the herewith attached Annexation Ordinance for the subject property.

We move that the Village Board approve the herewith attached Rezoning Ordinance rezoning the subject property to B-3 zoning.
