Ideal Antioch

"A vibrant community; a bustling downtown shopping, dining, business district where people choose to shop local; in which our children can learn and play"

"A well-connected community, both physically through trails and public transportation, and through community events. It would also be great to see a thriving economy by way of tourism and new businesses, as well as more recreational opportunities."

"Friendly environment that has historical places preserved. Plenty of community activities to keep people involved in community and education. Good variety of restaurants and businesses to provide community with what they need"

"I envision a bustling, happy community providing housing, jobs, education, recreation and social opportunities for people of all income levels!"
