Notice of Sewer Rate Increase for Residents Serviced by the Lake County System

The Lake County Public Works Department has recently notified the Village that rates for sewer treatment will increase effective January 1, 2016. Lake County conducted an analysis of treatment and connection fees and have passed an Ordinance to increase fees over the next three years. The rate changes apply only to those residents on the East side of the Village whose sewer is treated by Lake County Public Works.

Village Ordinance No. 13-12-24 states that any increases by Lake County must be passed on to the affected residents. Additionally, the current Village rate of \$1.47 per thousand gallons increases by 3% each year.

The combined rate will be increased according to the schedule below. The 2016 rate of \$5.47 will be reflected on your March bill.
